

 **VELA™**

ONEui™

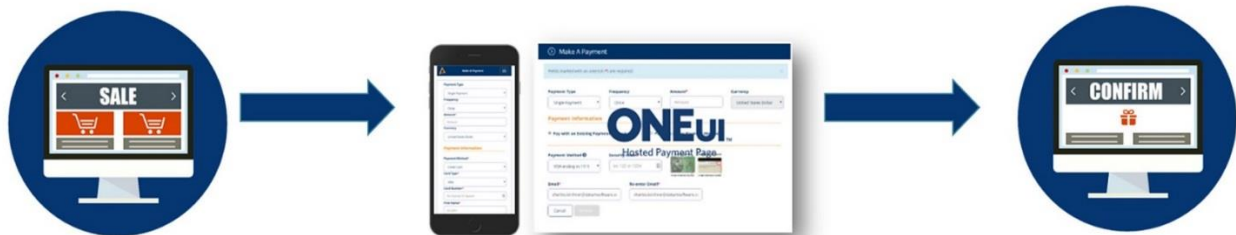

Hosted Payment Page

ONEui™ is a secure Hosted Payment Page (HPP) that can be easily configured to suit a range of current and expanding payment options. The customizable and responsive interface offers a consistent end user experience and minimizes the merchant's PCI overheads. It works with any type of business, perfectly scalable and seamlessly secure. ONEui™ is available as a component of VELA™.

PAYMENTS

- One centralized location to implement payment changes as merchants expand their payment portfolio
- Payment options available equally across all channels
- Consistent end user experience
- Customizable and responsive UI
- Enable extra services like Dynamic Currency Conversion (DCC), Card Storage/Tokenization and 3D Secure
- Potentially reduce the cost and scope of PCI compliance
- Maintain complete control of your branding throughout the customer payment cycle
- Minimize initial and ongoing IT resource impacts
- Secure your customers' payment data
- Multi-Lingual/Internationalization (i18n) Support
- Available as a Mobile App for iOS and Android
- White-labelled & Customized User Help Guide
